Street and 661-685 Atlantic Avenue

Petitioner seeks two conditional uses to use premises for two parking lots in a general business (B-10) and light manufacturing (M-8) district. The proposal violates the code as follows:

Section 8-7. A public parking lot with accessory signs and attendant's booth is conditional in B-10 and M-8 districts.

The properties, located in the South Station area, contain 4,065 and 31,731 square feet of land respectively. A total of 155 cars would be accommodated. Proposal would further delay positive redevelopment of the property by the petitioner. The open air parking facilities are contrary to new City and State policy. They cannot be allowed to expand especially in an area already undergoing extensive redevelopment and more than adequately served by public transportation. Conditional use requirements have not been met. Recommend denial.

Z-2940-2941, brought by Keystone Centrose Associates & Rose Associates, 55-59 High and 237-241 Purchase Streets; 200-220 Essex Street, 44-54 South Street and 661-685 Atlantic Avenue, in the South Station area, for two conditional uses to use premises for two parking lots in general business (B-10) and light manufacturing (M-8) districts, the Boston Redevelopment Authority recommends denial.
